FuseIQ v3.0 — Investor Pitch Deck

Abbasi Global LLC | Florida, USA

Slide 1: Title / Hook

FuseIQ

The Operating System for AI-Native Teams

Build. Orchestrate. Monitor. Scale.

Abbasi Global LLC | Phase 2: Active Development

Slide 2: The Problem

AI Chaos Is Costing Teams Millions

- **Siloed Agents**: Each tool runs independently — no unified view
- **Broken Workflows**: Handoffs fail, context is lost, quality drops
- **Unpredictable Costs**: Usage spikes, no visibility into spend
- **Integration Debt**: 40% of AI budget wasted on rework
- **No Command Center**: Teams fly blind on AI operations

> *"We have 12 AI tools and zero idea what they're actually doing." — VP Engineering, Series B SaaS Company*

Slide 3: The Solution

FuseIQ

One Platform to Rule All Your AI Agents

Visual Agent Builder - No-code drag-and-drop to full-code extensibility - Pre-built templates for common workflows

Multi-Model Orchestration - GPT-4, Claude, Gemini, Llama, Mistral — unified interface - Automatic model selection based on task + cost

Real-Time Command Center - Cost tracking, latency monitoring, quality scoring - Alerting, audit logs, compliance dashboards

Enterprise-Ready - SSO, RBAC, data residency, SOC 2 prep - On-premise deployment option

---

Slide 4: Product Demo

See It In Action

[Screenshot Placeholder: Visual Workflow Builder] - Drag-and-drop agent orchestration canvas - Real-time execution flow visualization

[Screenshot Placeholder: Monitoring Dashboard] - Live cost tracking across all models - Quality score trends over time

[Screenshot Placeholder: Agent Marketplace] - Pre-built agents for sales, support, research - Community-contributed templates

[Screenshot Placeholder: Team Collaboration View] - Shared workspaces, version control, commenting

Slide 8: Competitive Landscape

We're Building What Others Can't

Feature	FuseIQ	AutoGen	CrewAI	LangChain	Dify
Visual Builder	✅ Native	❌ Code	❌ Code	❌ Code	✅ Yes
Multi-Model	✅ Unified	⚠️ Limited	⚠️ Limited	✅ Yes	✅ Yes
Enterprise Security	✅ Built-in	❌	❌	⚠️ Partial	⚠️ Partial
No-Code + Pro-Code	✅ Both	❌ Code	❌ Code	❌ Code	⚠️ Limited
Cost Monitoring	✅ Real-time	❌	❌	⚠️ Basic	⚠️ Basic
Team Collaboration	✅ Native	❌	❌	❌	⚠️ Limited
On-Premise	✅ Option	❌	❌	❌	❌

Key Differentiators: 1. **Purpose-built for teams**, not just developers 2. **Enterprise-ready from Day 1** — security, compliance, governance 3. **Transparent pricing** — no usage surprise bills 4. **Open core** — extensible, community-driven
